It's part of the Cosmic Summit taking place June 20-23

GREENSBORO, NC – Greensboro will host more than 400 attendees from 40 states and seven countries for the annual Cosmic Summit, a one-of-a-kind conference exploring ancient mysteries, heterodox science, and catastrophic history. Now in its third year in Greensboro, the summit will take place June 20–23 at the Koury Convention Center.

This year's summit will feature three major announcements and presentations, including:

- The second release of acoustic and radar scan data from beneath the Pyramids of Giza, presented by the Italian Khafre Project team on Saturday, June 21 at 1:30 p.m.
- The U.S. premiere of *Atlantica*, a documentary by Michael Donnellan (Ingenio Films), claiming the discovery of Atlantis. Screening is Saturday, June 21 at 9:00 p.m.
- An unprecedented exhibit of impossibly precise pre-dynastic Egyptian vases, open for public viewing during exclusive three-hour sessions on Saturday and Sunday.

Featured speakers include Randall Carlson, Dr. Robert Schoch, Ben VanKerkwyk, Dan Richards, and Praveen Mohan—leading researchers, influencers, and independent scholars in geology, archaeology, mythology, and lost technologies.
